**THE MARK OF ENVIRONMENTAL RESPONSIBILITY**

In April 2008, the Portland Marriott Downtown Waterfront became the second Marriott Hotel to receive Green Seal Certification. For 20 years, Green Seal has believed in improving the health and welfare of people and the planet. The Green Seal standards actively advise and assist our property in making responsible choice that positively impact our business and

improve the quality of life. Many programs and changes have been made throughout the hotel. Low flow toilets and showerheads, composting of food waste, donating extra food, towel/linen re-use program, a full time recycling associate and the use of recycled paper products are just a few of our improvements. In addition, we also received the ENERGY STAR label, from the U.S. Environmental Protection Agency (EPA) for our efforts to conserve water and energy and protect the environment, and the Recycle Works award.
